

Alexander X Yu

✉ alexy23@g.ucla.edu | ☎ 408-888-9179 | 📍 San Jose, CA

Relevant Coursework

- Algorithms and Complexity
- Algorithms in Bioinformatics
- Computer Architecture
- Data Management Systems
- Data Structures
- Expert Systems
- Fundamentals of Artificial Intelligence
- Introduction to Theoretical Computer Science
- Logic Design of Digital Systems
- Operating Systems
- Programming Languages

Selected Projects

Footprint

An intuitive mobile app that allows people to track and visualize their daily carbon footprint. Built with React Native, Express, and Google Cloud Vision.

PrEPBot

An SMS chatbot that helps adolescents at risk of HIV register in the Louisiana TelePrEP program. Built with Twilio.

Music Scroll

A sheet music viewer that automatically switches pages hands-free with no hassle. Built with Express and OpenCV.

Awards

UCLA APLUS Scholarship
UCLA Dean's Honors List
National Merit Scholar
Presidential Scholar Nominee

Education

University of California, Los Angeles

B.S. in Computer Science
Cumulative GPA: 3.98

Los Angeles, CA

Sep 2019 - June 2023

The Harker School

High School Diploma
GPA: 4.0 (unweighted), 4.54 (weighted)

San Jose, CA

Aug 2015 - May 2019

Experience

Software Intern

June 2021 - Present

UCLA CHIPTS

Louisiana TelePrEP Program

- Developed and deployed a chatbot via Twilio's messaging API and Twilio Flow to help adolescents access HIV medication
- Trained an NLP model in Twilio to answer FAQs

Software Developer

Jan 2021 - Present

Daily Bruin

bruinwalk.com

- Redesigned the user dashboard page for bruinwalk.com, a review site for UCLA classes
- Implemented a feature that allows users to add their current classes to their dashboard to review later

Research Assistant

Oct 2019 - Oct 2020

UCLA Department of Psychology

Zili Lab

- Studied directional motion processing in the human brain using support vector machines
- Simulated and evaluated human decision-rule models based on same-different experiments
- Designed and programmed stimulus-based human perceptual experiments for both in-person and online environments

Research Assistant

June 2018 - Sep 2019

UCSF Department of Biochemistry and Biophysics

Li Lab

- Investigated causal links between a cell cycle regulator and the aging process in model yeast cells using image and data analysis techniques
- Analyzed physical and proteomic differences between mammalian species that may account for variations in lifespan

Skills

Programming Languages: Java, Python, Javascript, HTML, CSS, SQL, CLISP, Bash, C, C++, Golang, OCaml

Frameworks/Tools: Git, React, Node.js, Express.js, Django, MongoDB, GCP, Twilio, Scikit-learn, Keras, Pandas, Matplotlib, Joblib, Postman, Jupyter Notebook

Extracurriculars: Bruinwalk.com Software Developer (2021-present), Upsilon Pi Epsilon Member (2020-present), UCLA Symphony Cellist (2019-present), Harker Swim Team Captain (2019), Harker Orchestra Assistant Principal Cellist (2018-19)
