

Alexander X Yu

✉ alexy23@g.ucla.edu | ☎ (408) 888-9179 | 📍 San Jose, CA

Education

University of California, Los Angeles

B.S. in Computer Science
GPA: 3.98

Los Angeles, CA

Sep 2019 - June 2023

Relevant Coursework

Algorithms and Complexity • Data Structures

Computer Organization • Computer Architecture

Software Construction Lab • Logic Design of Digital Systems

Expert Systems • Multivariable Calculus • Linear Algebra

Differential Equations • Discrete Math • Statistics • Physics: E&M

Physics: Electrodynamics and Optics

The Harker School

High School Diploma
GPA: 4.0 (unweighted), 4.54 (weighted)

San Jose, CA

Aug 2015 - May 2019

Experience

Zili Lab

Research Assistant

UCLA Department of Psychology

Oct 2019 - Present

- Used support vector machines to study directional motion processing in the human brain
- Simulated and evaluated human decision-rule models based on same-different experiments
- Designed and programmed stimulus-based human perceptual experiments
- Wrote and edited scientific manuscripts for publication; 2 manuscripts currently in preparation

Li Lab

Research Assistant

UCSF Department of Biochemistry and Biophysics

June 2018 - Sep 2019

- Used machine learning and image/data analysis techniques to investigate causal links between a cell cycle regulator and the aging process in model yeast cells
- Built computational pipelines to analyze physical (body mass, metabolic rate) and proteomic (Gene Ontology, positive selection in genes) differences between mammalian species that may account for variation in lifespan

Skills

Programming Languages: Java, Python, C++, Bash, HTML, CSS, Javascript, C, LISP, JESS, R, and SQL

Frameworks/Tools: Node.js, Django, ReactJS, MongoDB, GIt, Postman, GCP, AWS, Tensorflow, Scikit, Matplotlib, D3.js, OpenMP, Joblib, GDB, Mathematica, Jupyter Notebook

Extracurricular Positions: UCLA Symphony Cellist (2019-present), Harker Swim Team Captain (2019), Harker Orchestra Assistant Principal Cellist (2018-19)

Projects

Projector

A web application to post project ideas, form collaborative teams, and connect with others.

Footprint

An intuitive mobile app that allows people to track and visualize their daily carbon footprint.

Music Scroll

A sheet music viewer that automatically switches pages hands-free with no hassle.

SMEA

An expert system that helps to choose events to enter for a swim meet.

Awards

2020

UCLA APLUS Scholarship

2019-20

UCLA Dean's Honors List

2019

National Merit Scholar

2019

Presidential Scholar Nominee

2017

USA Computing Olympiad Silver Level
